<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<p>Please enter # of licenses that were purchased on the line next to the software. (Note: This is not a sales agreement. Quantities will be verified by the sales order agreement.) Atlantic Business Products will load and program the above software according to manufacturer's guidelines with the inclusion of professional services charges. Most software requires Business level operating systems. A member of our Solutions Team will be in contact prior to the installation if additional information or a formal scope of work is required.</p>

<p>*** Atlantic will provide the software and drivers for the purchased equipment in the environment described above and will install them on 3 workstations and/or a print server. Additional workstations needed at the time of install or at a later date are chargeable. If the above network configuration changes after the initial installation and those changes require Atlantic to reconfigure the software or hardware programming, that service is also chargeable. Customer confirms that they have current backup sets of the servers/workstations where software/drivers need to be installed. Additionally, the customer is responsible for providing a functional network and associated hardware for connectivity, network share folders with the proper access control settings and an email account to be used for scan to email. Completion of this form will help Atlantic to confirm compatibility prior to installation.</p>	<p>Automated Meter Collection To simplify the meter collection process Atlantic will install free software that will automatically transmit the serial number and meter readings back to Atlantic each month. If you would like to opt out of this service check the box below. Should you opt out, meter readings for all units become the responsibility of the customer and are due on the 1st day of each month. Failure to report will result in late fees of \$25.00 per incident. <input type="checkbox"/> Declined</p>
