## NEED A REMOTE WORKPLACE STRATEGY?

Together we can help your people stay productive, secure their remote workplace and control your technology related expenses.

### Remote Office Equipment

Provide your people with the business technology required to "Work From Home."

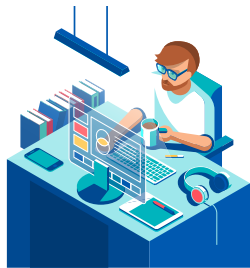

- Mobile Workstation** – Laptops, desktops and more.
- Collaboration Tools** - for teamwork & communication
- Softphone** – Virtual Communication Mediums
- Multi-function Device** – ready to scan, print, copy & fax

### Remote Document Management

Replace manual processes with digital documents and workflow automation.

- Workflow Process Approval** – Accelerate, automate, and simplify
- Secure Document Archiving** – Protect, organize and access quicker
- Day-Forward Scanning** – Create a starting point to eliminate paper filing systems
- Digital File Room** – Establish a digital library for your documents

### Remote Workplace Productivity

Ensure uninterrupted performance with the right work from home technologies.

- Electronic Fax (eFax)** – Secure and efficient
- File Conversion** – Work in the formats you want
- Electronic Signature** – Provide approval digitally
- Cloud Storage** – Limitless file storage & sharing

### Remote Workplace Security

Prevent confidential data breaches caused by inadequate security protection.

- Secure Network Access** – Prevent unsecure visitors
- Digital Rights Management** – Control your digital assets
- Data Loss Prevention** – Ensure proper backups

### WE ARE READY WHEN YOU ARE

**Contact us today** for an information sharing session on your remote worker needs and how you may be able to leverage our experience and our Remote Workplace Services.
